

## M-BUS to BACnet/IP Server Gateway

Integrate any M-Bus device with BACnet. The aim of this integration is to make accessible M-Bus devices, its registers, and resources from a BACnet-based control system or device as if it was a part of the own BACnet system and vice-versa.

### FEATURES

UL Listed.

BTL Certified.

Scan: Automatic identification of M-Bus devices (meter detection) and registers discovery.

Embedded M-Bus level converter.

Supports BACnet/IP physical layer.

BACnet Advanced features available (Trend logs, Calendars, etc.)

Configuration through IP (Console) port.

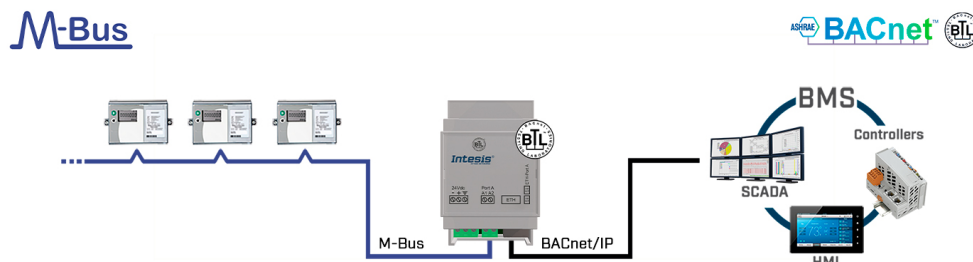

Easy integration with Intesis MAPS.

Automatic updates for both Intesis MAPS and the interface's firmware.

### Use Case

Integration of M-Bus meters into a BACnet/IP installation.

### Description

This bidirectional gateway provides a straightforward and fast integration thanks to its unique onboard features.

The BTL mark ensures 100% compatibility and, at the same time, guarantees seamless integration with any BACnet/IP device.

### SET UP WITH INTESIS MAPS

The configuration is carried out using the Intesis MAPS software. This one allows you to define your own settings for the device. Also, it will be able to download all the available project templates or import any created/exported project template on your computer.

Intesis MAPS makes it easy to identify any malfunction in the installations thanks to its robust diagnostic feature.

**ORDER CODES:**

INBACMEB0200100	M-Bus to BACnet/IP Server Gateway - 20 devices
INBACMEB0500100	M-Bus to BACnet/IP Server Gateway - 50 devices

**INCLUDED COMPONENTS:**

Intesis Gateway.  
 Installation Manual.  
 (Power supply not included).

Warranty: 36 months.
